

## Gloxinia Care Instructions

**Scientific Name:** Sinningia speciosa  
sin-IN-jee-ah spee-see-OH-sah

**Water:** Moderately moist soil is preferred. Water thoroughly when just the soil surface is dry to the touch. Do not allow plants to stand in water.

**Light:** Indirect or bright-diffused light is best.

**Temperature:** Prefers 70F-75F degrees during the day and 65F-70F degrees at night.

**Tips:** Available throughout the year but common from March through November.

Available in shades of red, pink, purple.

Bloom will last from 2-4 weeks with proper care.

Take care not to overwater, as this can prevent buds from developing.

Avoid splashing water on leaves, which can cause yellow spots.

Aphids can be a problem.
